West Champaran, Bihar

+91-9304357100 — [durgeshkumargupta1210s@gmail.com](mailto:durgeshkumargupta1210s@gmail.com)

## Summary

Motivated and results-driven B.Tech student with a strong foundation in Python, Java, and C programming. Solved 400+ problems on platforms like LeetCode and Codeforces, demonstrating strong problem-solving and algorithmic thinking skills. Beginner-level experience in frontend development, proficient in HTML, CSS, and JavaScript. Passionate about software development, data structures, and competitive programming. Seeking an internship or full-time position to apply and expand technical expertise in a dynamic environment.

## Education

**GLA University, Uttar Pradesh, India**

B.Tech in Computer Science

Aug 2023 – May 2027

CPI: 9.2

**Jeevan Public School, Bihar, India**

12th CBSE Board

April 2020 – May 2022

Percentage: 82.4

## Projects

Blogs Website — HTML, CSS, JavaScript, GitHub

- **Developed a static blog platform** with features like article posting and commenting.
- Created a responsive layout ensuring accessibility across various devices.
- Integrated **interactive elements** with JavaScript to enhance user engagement.

StudySync Website — HTML, CSS, JavaScript, GitHub

- **Built a platform for students** to sync study materials, notes, and resources.
- Implemented **note organization and task management** features for better user productivity.
- Designed a responsive UI that adapts to different screen sizes and provides a seamless user experience.

Spotify Clone — HTML, CSS, JavaScript, GitHub

- **Developed a music streaming interface** similar to Spotify using only HTML, CSS, and JavaScript.
- Implemented a **dynamic playlist management system** to organize and play music.
- Focused on **creating a fluid, responsive design** for an optimal music browsing experience.

Leetcode Metrics App — HTML, CSS, JavaScript, GitHub

- **Built an interactive app** to solve matrix problems from Leetcode, visualizing algorithms in real-time.
- Integrated visual representations to help users understand the algorithmic steps more effectively.
- Created a responsive design that adjusts to various screen sizes and devices.
